**Subject:** RE: Area 40 Draft Remedial Action Plan  
**Attachments:** Aerojet Area 40 Proposed Plan DRAFT 20180216AMM.docx

Attached are my suggested edits and a few comments on the draft Proposed Plan. Some of my comments are the same as those on the Feasibility Study as the text is the same portions of the documents.

Alex

**Subject:** RE: Area 40 Draft Remedial Action Plan

Hi Lynn – Attached is the MS Word version of the Area 40 RAP Appendix A, Proposed Plan. The intent of preparing this document is to provide you with a draft version for review and edit prior to submitting for management approvals. We are happy to revise based upon your comments. Our goal is to conduct the public review of the proposed plan at the same time the public reviews the draft RAP and associated CEQA document. We anticipate that the public comment period for the draft RAP and CEQA document will begin at the end of April or beginning of May.

Let me know if we can assist any further. Thanks, Chris

**Subject:** Area 40 Draft Remedial Action Plan

Hi Everyone – Per our past discussions, attached is the draft Area 40 Remedial Action Plan (RAP). A hard copy of this document will be sent to you via FedEx on Friday (you will likely receive on Monday or Tuesday next week). While we have not received all of your comments on the draft feasibility study, we have discussed the alternatives at length during

in person technical meetings. We believe the Agencies will agree that the remedy selected in the RAP reflects the results of these discussions. We are still working on the development of the proposed plan, which will be Appendix A of this document, and the administrative record, which will be Appendix C of this document.

In order to stay on schedule, please review and submit comments by February 28, 2018. Thanks, Chris
